Website Portfolio 2003 - 2004

Surfset NL has existed in the Netherlands for 5 years. In that time we have created a range of websites and Internet applications that reflect the latest in Internet design styles.

Our designs focus on the user experience. We employ a usability consultant as required to ensure seamless functionality and familiarity for the user. A simple intuitive navigation ensures the user always gets the maximum out of a visit to your site, or your employees maintain maximum efficiency using one of our applications.

With a mixture of European influences the sites are always innovative, tailored to your requirements and utilize the latest technology at the level you desire.

This website portfolio previews a selection of designs (live and off-line) currently leading the field in Internet design.

'home page'

The screenshot shows the home page of Niersman BV, a construction company. The header features the company logo "N B O U W B E D R I J F N I E R S M A N B V" in large, stylized letters, with the tagline "Ruim 140 jaar kijk op bouwen, dat scheidt vertrouwen!" below it. A navigation menu includes "HOME", "NIEUWS & PROJECTEN", "OPLEIDING", "PORTFOLIO", "VACATURES", and "KONTAKT".

On the left side, there is a list of company features:

- Familiebedrijf sinds 1863
- 70 medewerkers
- Euro 25 m/n. omzet
- Kwaliteit en continuïteit
- Erkend leerbedrijf
- ISO 9000 gecertificeerd
- Adviseur in bouwteams
- Maatwerk / Creatief
- Turn-key aannemen
- Nieuwbouw
- Verbouw
- Onderhoud
- Restaurantie

A central image shows the "Niersman BV Hoofdgebouw" (headquarters building).

The "NIEUWS" (News) section contains two articles:

- Starrenburg II Polder**: Inmiddels van start gegaan, nieuwbouw 124 koopwoningen waaronder 12 vrijstaande villa's deelplan Polder in Starrenburg II te Voorschoten. Totaal... [meer >>](#)
- Sloep Zoetermeer**: In het vervolg van de nieuwbouw van het appartementcomplex Meidoornhof te Zoetermeer, wordt er binnenkort gestart met zes luxe villa's... [meer >>](#)

Below the news section, a heading reads "UW BOUWPARTNER BIJ UITSTEK VOOR:" followed by a list of services: "Woningen", "Scholen", "Kantoren", "Bedrijven", and "Instellingen". An illustration of a construction worker with a hard hat and a clipboard is positioned to the right.

At the bottom, there are logos for "GIW", "Niermans Groep", "BouwNed", and "ISO 9001 DNV".

OBJEKT 27:

OBJEKT magazine is for people interested in good design and creativity. The articles cover all parts of the world bringing the best examples of 'Living in style'.

From very modern to very antique, interior architecture and landscape gardens, the topics of the magazine are varied, up-to-date and always inspirational. An essential reference piece for creative designers and armchair readers alike.

Materials, colours and structures, together with light, are the primary elements in creating ambience in an interior. The 'éditeurs' who design fabrics for some of the leading manufacturers have always had an important part to play. Even the most obdurate minimalists have reached the conclusion that the ancient textile tradition cannot be ignored. >> [more](#)

Hans Fonk provides excellent photography perfectly capturing the presence of the environment. His pictures show off new innovations matching their surroundings in every sense. His trademark bright colours highlighting the shape and textures of the item being exposed.

The magazine is released three times per year and is available either [here](#) online or from one of the many design and interior shows attended by OBJEKT.

'where energy makes the world go round'

> Algemeen > Ligging > **Woningen** > Architect

Aan de rand van het Groene Hart en op een steenworp afstand van het oude centrum van Leiden worden hoogwaardige woningen gebouwd. Ingeklemd tussen het Rijn-Schiekanaal en de A4 wordt de woonwijk Roomburg gerealiseerd, één van de laatste Leidse nieuwbouwwijken. In Roomburg zullen in totaal circa negenhonderd woningen worden gebouwd, met bijbehorende wijkvoorzieningen op het gebied van onderwijs en kinderopvang. [> more](#)

Welcome

The objective of the User Document Access System (UDAS) tool is to provide existing and potential users of low gravity platforms access to documents, factsheets, books, brochures and publications relative to research on these platforms, as well as the facilities available to carry out the research. The literature contained within the archive ranges from general reading for new users who are not familiar with all or most aspects of research in low gravity, to more detailed applicable documents for payload/experiment integration. The archive covers the major low gravity platforms (i.e. drop towers, parabolic flights, sounding rockets, Foton and ISS) and the principal research areas and/or research cornerstones supported by ESA.

Cluster Captures a Triple Cusp

On 18 April 2002, three cusps were consecutively observed by Cluster over the northern hemisphere. A detailed study reveals that this triple cusp was a temporal sequence rather than a spatial effect.

**'Sfeervol wonen aan het water
midden in het groene hart**

Bij het eerste ochtendgloren op een vroege lentedag meandert de oude Rijn als een goudomrande ader door het landschap. Langzaam neemt het zonlicht in kracht toe. In het uitgestrekte weiland laat de grutto zijn eerste roep horen. Voorzichtig bouwt hij zijn nest. Het wordt een drukke dag. Terwijl de koeien aan het 'ontbijt' beginnen en een schuchtere kievit voor hen wegvlucht komt een sportvisser zijn huis uit en neemt plaats langs het water. Niet lang nadat hij zijn hengel heeft ingeworpen vangt hij een mooie rietvoorn. Een blauwe reiger die als een standbeeld tien meter verderop als aan de grond staat genageld kijkt smachtend toe hoe de vis van de hengel wordt losmaakt en in het water wordt teruggezet...
